

# BATHROOM SPACE

2020  
/21

Bianchi & Valsesia

# ASYMMETRIES

## 01

Compositional  
dynamism  
whose aim is the  
creation of new  
opportunities in the  
bathroom furniture  
through the shapes  
simmetry and  
asimmetry

# CONTRAST

## 02

Functionality and containment are the main characteristics

The contrasts exaltation is possible through the match of different elements

# GEOMETRIES

# 03

The dominant position derives from the different components characterised by colours of primary importance and thick geometries

# NATURALNESS

## 04

The nature exaltation in the bathroom environment is possible both through the floors and coverings and through the furniture

# MATERIALITY

# 05

Colours and effects  
of the materials  
reinforce the shape  
concept whose aim  
is the enhancement  
of the own  
bathroom

# MODULARITY

# 06

The modularity of components generates an integration of the volumes and the space depth

# WELLNESSES 07

Only two material and aesthetics elements: wood and metal. Their constant presence and tuning enhances the nature as a wellness prerogative.

# RELATION 08

Colours have got a linkage with the natural elements creating a relation between the indoor and outdoor environment
